# Innovate2010

The Rational Software Conference

Let's **build** a smarter planet.

The premiere software and product delivery event.

June 6–10 Orlando, Florida

## There are no slides for this presentation

- This session will be a panel discussion.
- The group will be covering a variety of Agile Quality Issues outlined in the session abstract:
  - ▶ There is a great variety of techniques and tools for testing and quality assurance. Should you embed testers into development teams? When should there be an independent test team? Should people pair program? Does refactoring work? How does test-driven development (TDD) fit in? How can you test user interfaces, services, and databases effectively? Do agile strategies really work? Do agile testing strategies scale? Come listen to our panel of IBM experts and customers describe their experiences around what really works in practice.
