

ATSC Adds Affordable Web Based CJIS Access to Voyager Product Line

MCLEAN, VA – (BUSINESSWIRE) – October 5, 2009, ATSC Corporation (“ATSC” or the “Company”) (OTCBB:ATCT) announced today the addition of a low cost web browser solution as part of the Company’s expanding product line for law enforcement agencies. Voyager Mobile Web Edition provides full NCIC and CJIS data access and meets all FBI security requirements. Law enforcement agents can run wants, warrants and other critical database checks in seconds from a laptop or desktop computer in a zero footprint environment. The solution meets the growing needs of agencies to provide necessary officer safety tools while facing shrinking budgets and information technology support. “Nationwide we are hearing that as agencies are working to add back in police staff in high crime areas they are concerned that they cannot provide all the necessary information tools needed to keep officers safe. Voyager Mobile Web Edition is a high value, low cost solution that enables information sharing to the officers that need it most,” said Valerie Perlowitz, Senior Vice President of ATSC’s Public Safety division.

Voyager Mobile Web Edition can be deployed in stand alone infrastructure deployments as part of ATSC’s advanced Voyager Enterprise Server (VES) information sharing platform. It is also available through the Voyager Software as a Service (SaaS) platform, the largest subscription based criminal justice information SaaS in the United States which is currently available in 20 states.

About ATSC Corporation

ATSC is a leading provider of software and systems development, systems integration, infrastructure management and outsourcing, information sharing and consulting to the Department of Defense, Federal civilian agencies, public safety and national security customers, as well as commercial enterprises. Headquartered in McLean, Virginia, the Company has nearly 600 employees at 10 locations across the country.

Any statements in this press release about future expectations, plans, and prospects for ATSC, including statements about the estimated value of the contract and work to be performed, and other statements containing the words “estimates,” “believes,” “anticipates,” “plans,” “expects,” “will,” and similar expressions, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: our dependence on our contracts with federal government agencies for the majority of our revenue, our dependence on our GSA schedule contracts and our position as a prime contractor on government-wide acquisition contracts to grow our business, and other factors discussed in our latest annual report on Form 10-K filed with the Securities and Exchange Commission on March 16, 2009. In addition, the forward-looking statements included in this press release represent our views as of October 5, 2009. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to October 5, 2009.
