

## **Virginia Commonwealth University Appoints ATSC Corporation Senior Vice President John Hassoun to Computer Science Industrial Advisory Board**

MCLEAN, VA – (PRNEWswire) – October 21, 2010, ATSC Corporation (“ATSC” or the “Company”) (NYSE Amex: ATSC), a leading information technology company that delivers innovative technology solutions to government and commercial organizations, announced today that ATSC Senior Vice President of Federal Programs, John Hassoun, has been appointed by Virginia Commonwealth University (“VCU”) School of Engineering to the VCU Computer Science [Industrial Advisory Board](#) (“IAB”). This board serves as a link between the VCU Computer Science Department (the “Department”) and local, state and national businesses, as well as representatives of federal agencies and other universities. The IAB advises the Department on business trends, provides feedback on preparedness of its graduates for fulfilling current business needs, and helps with keeping its curriculum current.

“I am honored to be appointed to serve on the VCU Computer Science Industrial Advisory Board,” said ATSC Senior Vice President of Federal Programs [John Hassoun](#). “I look forward to this opportunity as a way to contribute to the community at large by supporting initiatives to enhance communication among key technology interests in business, government and academia.”

VCU School of Engineering Dean Russell Jamison stated: “We welcome the appointment of such an experienced and respected technology business leader as John Hassoun to the VCU Computer Science Industrial Advisory Board as we strive to develop curricula that effectively address the ever expanding role of technology in the world today.”

“I commend VCU’s appointment of John Hassoun to this valuable advisory board,” said ATSC Chairman and Chief Executive Officer [Dr. Edward H. Bersoff](#). “John’s extensive background in advanced technology and business will be valuable in supporting IAB initiatives to foster the next generation of technology leaders emerging from the VCU Computer Science program.”
